Professional in the Chemical Sciences

GAMMA ETA SCHOLARSHIP AWARD

Gamma Eta Scholarship Award

In 2004, the Gamma Eta Scholarship Fund was established to provide scholarships for members of Gamma Eta Chapter. This fund is administered by Alpha Chi Sigma Educational Foundation.

Each April, the selection committee solicits applications from the members of Gamma Eta Chapter. Only those members who were initiated prior to the beginning of the current calendar year are eligible. The award recipient must be a student at Marshall University for at least one term after the award is presented. Both undergraduate and graduate students are eligible. Students who were initiated at another chapter but who are active in Gamma Eta Chapter also are eligible.

The committee will consider the following criteria in the process of choosing the award winner:

- Active participation in the activities of Gamma Eta chapter and Alpha Chi Sigma as a whole
- How well the applicant lives up to the Three Objects of the Fraternity
- Academic record
- Financial need
- Any other criteria the committee may find appropriate

The committee is requested to give special consideration to those applicants whose parents did not attend college.

Year	Winner	Chapter
2005	Brooke Williams	Gamma Eta 2003
2006	Sara Chadwick	Gamma Eta 2004
