

Kelly Tinney – Alpha Omega, 2011

I am running for Professional Representative as I am in a place in my life where I have more time to dedicate to AXS in an official capacity and I've also discovered a passion for helping young professionals find their footing with AXS post graduation.

I joined Alpha Chi Sigma in 2011 and have been involved at some capacity since including being a former North East District Counselor. Being a Professional Brother for the last 10 years, I've recognized that the transition for young pros to the Professional Branch is not always a smooth one and I would love to help brainstorm and develop ideas around lowering this hurdle.

I also love being a Brother of Alpha Chi Sigma and have met so many friends that have continued to be a part of my life due to this organization. I want to be able to create a road map for other younger professionals so that they can continue to grow in this fraternal organization even beyond their collegiate chapters.
