**Statement:**

Hello Brothers! I am honored to have been appointed as a Professional Representative for the remainder of 2024, and to be nominated to run. While I have not been a member of the Professional Branch as long as other candidates, I assure you that I share their passion and dedication to our organization. I believe my experience with the collegiate branch speaks for itself and will lend itself extremely beneficial as a PR.

My main goal in the coming months is to continue the work done by this biennium's PRs with career affinity groups and holding sessions specifically for collegiate brothers to learn more about different career paths. I would also like to establish a career database that collegiates can access to help build their professional network. I will lend my support to my fellow PRs in their ongoing projects as well as be receptive to any projects the SC requests during the biennium. I truly hope to continue serving this fraternity in this new capacity for years to come.

YITDB,

Tiffany M. Matyja (she/her)
